

# Mohanji Centre of Benevolence - USA

I want to share our recent discovery of the vegan Mohanji Center of Benevolence USA.  
(<https://www.facebook.com/mohanjicenter>)

It is right here in Dugspur, Virginia. There are 12 more such centers around the globe, but this is the one in the USA.

Mohanji International does humanitarian work with volunteers, providing food, clothing, healings and programs, in areas of need, in six continents, 90 countries, 27+ languages — "making the transition from human-kind to kind humans." **Mohanji.org**
